

1Announce

1 stop destination to scheduling
announcements across multiple platforms

About **1Announce**

1Announce is a multimedia message management suite that lets you to create, schedule, and manage rich announcements

Posts can be anything! Multi-message, marked up, images, videos

Schedule posts in advance to any platform!
(Instagram, Discord, GroupMe, LinkedIn, ...)

Why care?

There is real demand among community organizers

Imagine you had a need to post 7 announcements on three different platforms, on different days at specific times, every week

It's a critical step in an event's success yet a major point of stress

Manual posting is not a practical solution

- Susceptible to human error
- Exponentially scales in difficulty
- Costs people time and productivity

On the other hand ...

- Schedule announcements in advance at leisure
 - Target multiple platforms in one strike
 - Uniform and regular announcements
 - Improved productivity
-
